

## **RADON SURVEY IN PROGRESS**

Dear Tenant:

Partner has been contracted to conduct short-term radon testing on this property. This is an important step taken to ensure a safe and healthy building. Although your unit has not been selected please see the required testing conditions and be sure to comply with the below requests.

### **General Information on Radon**

- Radon is a naturally occurring radioactive gas formed by the decay of uranium in soil and water.
- Radon is invisible, odorless, and tasteless.
- The only way we can detect radon is through testing.
- Radon moves up through the ground finding its way through tiny cracks and holes in the foundation of building.

### **PLEASE HELP TO MAINTAIN THE REQUIRED TEST CONDITIONS**

- **Maintain Closed House Conditions as defined as all Windows on all levels and external doors must be kept closed (except for momentary entry and exit) for 12 hours before and during the testing period.**
- **Heating can and should run as normal; Window Air Conditioning units can be run on recirculation mode. Low draw appliances (bathroom/kitchen vents) are permitted in normal usage.**
- **Please do not disturb devices in other units and/or common areas**

### **Testing Period**

	<b>Date</b>	<b>Time</b>
<b>Test Begins:</b>	March 2, 2020	9 am through 5 pm
<b>Test Ends:</b>	March 4, 2020	10 am through 5 pm

### **Please Contact Your Property Manager with Questions or Concerns**

Thank you in advance for your cooperation.
