

Hangar Flats is a unique development that offers the desirable traits of owning a single-family home without most of the difficulties. The homes have attached driveways and garages, making them very private and spacious. The greenspace around the community is also a huge plus, as it provides ample opportunities for recreation and relaxation.

Each home boasts modern features and finishes, recessed lighting, stainless steel appliances, plush carpet in the living room and bedrooms, upgraded stainless steel hardware packages, stackable washer and dryer connections, and professionally landscaped yards.

DEAR TQL EMPLOYEES,
