Paris and the Summer Olympics

The 2024 Summer Olympics Are Right Around the Corner - Here's What We Know (So Far)

Where Are the 2024 Summer Olympics?

Paris - otherwise known as the city of love and the capital of France - is set to host the 2024 Summer Olympics. Expect coverage to feature Parisian history with landmarks like the Seine River, Grand Palais, and Eiffel Tower. Most of the Games will take place in the official host city with [35 different venues](#) across the entire Île-de-France region. Among these locations, the park at the foot of the Eiffel Tower will serve as a temporary outdoor arena, the Trocadéro will offer views of the triathlon and swimming events, and the iconic Bercy Arena will hold events like artistic gymnastics and basketball. Just outside city limits, [the Château de Versailles](#) will host equestrian events like show jumping, dressage and cross-country. The five [modern pentathlon events](#) (fencing, swimming, riding, shooting, and running) will also take place in Versailles.

When will the 2024 Paris Olympics Take Place?

The Paris Games will begin on Friday, July 26, 2024, and conclude on Sunday, Aug. 11, 2024. Olympic Trials are taking place throughout April, May, and June. Notably, [the Olympic Swimming Trials](#) are set for June 15-23 at the Indianapolis Colts's Lucas Oil Stadium, marking the return of record-breaking athletes like Katie Ledecky. The Olympic Gymnastics Trials will take place on June 27-30 in Minneapolis, Minnesota, with Suni Lee, Simone Biles and Gabby Douglas all competing to make the five-person team. While the Olympic Wrestling Trials are scheduled for April 19-20, the Olympic Diving Trials will take place on June 16-23, and the Track and Field Trials will follow on June 21-30.

Has Paris Ever Hosted the Olympics Before?

Yes! In fact, the 2024 Olympics will mark Paris's third time hosting the Summer Games - an impressive milestone only London has conquered thus far. Additionally, France will be returning as the host nation for the sixth time. Previously, France hosted the Summer Games in 1904 and 1924, both of which were set in Paris, as well as the Winter Games in 1924 (Chamonix), 1968 (Grenoble), and 1992 (Albertville). Needless to say, France knows a thing or two about hosting the Olympics.

Will There Be Any New Sports at the Paris 2024 Olympics?

In addition to the usual summer sports like gymnastics and swimming, breakdancing has been added to the Olympic lineup for the 2024 Summer Olympics. Similar to skateboarding and surfing, which made their Olympic debut in Tokyo, breakdancing is expanding the definition of Olympic sports, and has quickly become one of the most talked about events. Fans will also be happy to see Paris include newer sports like sport climbing, karate, and - yes - skateboarding and surfing, in the 2024 Games, too. According to the Paris Olympics site, the city [added these sports to their initial IOC proposal](#) because they "are closely associated with youth and reward creativity and athletic performance." This also speaks to the IOC's continued effort to integrate more inclusive and youth-focused sports into the Olympics.

Summer energy saving tips from APS

Laundry energy saving tips:

- Wash only full loads of laundry. For small loads, adjust the water level.
- Wash clothes in cold water. About 90% of the energy needed to run a washing machine is used to heat the water.
- Before putting your clothes in the dryer, run an extra spin cycle to remove more water.
- Clean the lint filter in your dryer after every load. This increases air flow.
- Dry loads of laundry back-to-back. This keeps the dryer warm.

Cooling energy saving tips:

- Raise your thermostat 1 degree and save 2-3% on cooling costs.
- Program your thermostat to adjust the temperature when you're not home.
- Change your air filters monthly. Dirty filters make your AC work harder, costing you money.
- When your AC is running, keep the doors inside your home open. This improves air flow, helping your AC run more efficiently.
- Instead of turning up the AC, try using a ceiling fan for a cool breeze. Be sure to turn the fan off when you leave the room. Remember: Fans cool people, not rooms.
- Using the oven heats up your home. When you can, use a microwave, air fryer or slow cooker instead. You might also consider grilling outside.
- Turn off any lights or appliances you aren't using; they create heat.
