Cactus League

Where can you go to see half of the Major Leagues' 30 teams play without having to drive more than 47 miles – and oftentimes much shorter distances? That would be the Cactus League, where 15 teams prepare for the season in a relatively tight radius surrounding the beautiful Valley of the Sun – Phoenix, Arizona.

Cactus League teams: Angels, Athletics, Brewers, Cubs, Diamondbacks, Dodgers, Giants, Guardians, Mariners, Padres, Rangers, Reds, Rockies, Royals, White Sox

The Cactus League schedule [gets underway](#) on Feb. 20, with a contest between the Cubs and Dodgers, just over a month before they meet in the Tokyo Series from March 18-19. The Grapefruit League starts a day later, with the Rays and Yankees playing at George M. Steinbrenner Field in Tampa, which is the Yankees' Spring Training home but this year also will [host the Rays during the regular season](#) due to damage sustained by Tropicana Field during Hurricane Milton.

Creating An Enchanted Succulent Garden In Your Backyard, On the Patio or at your Front Door. By [HomeBNC](#)

If there's one fast growing trend in plant arrangements, it's the world of succulent gardens. Where once a succulent garden was rarely seen, succulent arrangements are today found just about anywhere: indoors patios, office environments, office buildings, by a pool side, front-walk entrances, outdoor patios and even inside homes.

Whether it's a baby turtle plant or a full-grown adult plant you'd like to see in your succulent garden, either one will delight your visitors as you display how growing succulents has evolved into a full-scale artistic endeavor. In your local garden supply or hobby craft store you're bound to find already fashioned turtle-shape wire designs or you can fashion them yourself with a little imagination and effort. Then, filling your wire turtle with moss, you can start inserting your own preferred kind of succulent plant. Just be sure to leave its head and legs uncovered from plants so to create the contrasting features of your "slower than molasses" garden pet turtle.

Just because you have old furniture in your backyard or in your home, doesn't mean you can't still use it as a delightful focal point in your garden. An old wired chair, flat container dish and plenty of plants can easily turn into a delight in your garden setting. Hanging succulents, grounded rosebud succulents and just about everything in between from that piece of furniture creates a most unique and beautiful garden decor. You can even opt to paint the chair before you start to build your garden chair, or you may decide to leave it au natural. Either way, it'll serve as the perfect piece to gather around as your garden's most focal center of conversation.
